THE MERUELO FAMILY CENTER FOR CAREER DEVELOPMENT

# YEAR IN REVIEW

---

The Meruelo Family Center for Career Development serves Notre Dame undergraduate and graduate students in all stages of the career development process through the use of a world-class facility in the Duncan Student Center.

Our staff of 30 professionals leverage their experiences and talents to empower students to discern, discover, and pursue meaningful careers to be a force for good in the world. We do this by preparing students for lifelong career readiness through innovative and tailored programs, services, and strategic partnerships.

Our Undergraduate Career Services team coordinates a broad range of career-related services for all undergraduate students. We help students discern who they are by engaging in opportunities to reflect on their values, interests, personality, and skills; discover various career options through networking, job shadows, and internships; and pursue a career for a life where they can find success, meaning, and impact.

Our Graduate Career Services team helps students develop a proactive, individualized career development plan for their time at Notre Dame and beyond, allowing them to search for and secure career opportunities that best match their unique values, interests, personality, skills, needs, and goals. Whether remaining in higher education following a degree, or exploring options in business, government, nonprofit, NGOs, or other career paths of interest, Graduate Career Services supports our students in developing and reaching their short-term and long-term career goals.

## Fall Career Expo | September 5, 2018, Football Stadium Concourse

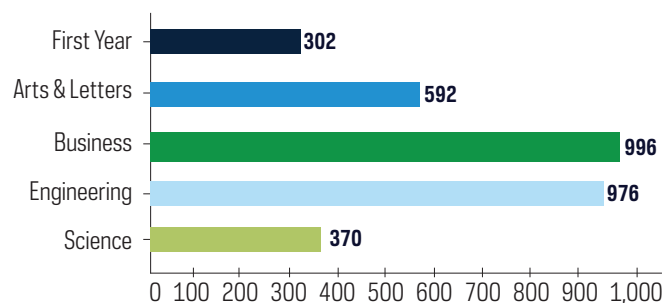

The Fall Career Expo is the Meruelo Family Center for Career Development's largest career fair of the year for undergraduate and graduate students. Representatives from 247 companies traveled to campus to participate in the Expo on September 5. For the second year, the event took place in the football stadium concourse from 4:30 to 8:30 p.m. Employers offered opportunities for students from all academic colleges. Students from every major and college attended.

**3,251** STUDENTS

**247** EMPLOYERS

**500** STUDENTS WITH INTERVIEWS  
the day after the Expo.

### ATTENDANCE BY COLLEGE

## 89 FAIR-RELATED EVENTS

Career Development facilitated dozens of events around the Fall Career Expo, including information sessions, workshops, events, resume reviews, and prep sessions from August 27 through September 7.

### 4 ENGINEERING RECEPTIONS

- Chemical Engineering Reception
- Civil & Environmental Engineering Reception
- Aerospace & Mechanical Engineering Reception
- Computer Science, Computer Engineering & Electrical Engineering Reception

### STEM COFFEE & CAREERS

In its 4th year, the event served as a kickoff to the Fall Career Expo for STEM graduate students to network with visiting employers in the Dahnke Ballroom.

**103** STUDENTS

**19** EMPLOYERS

**59** REPRESENTATIVES

## Winter Career Fair | February 13, 2019, Dahnke Ballroom

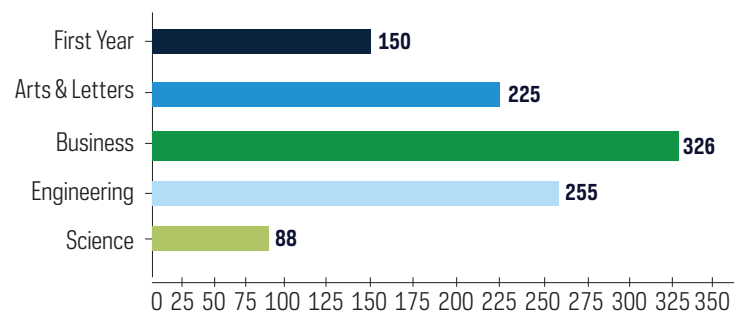

The Winter Career Fair is the Center for Career Development's second largest career fair. Just like the Fall Career Expo, the Winter Career Fair was open to all students, undergrad and grad from every major.

The Career Fair was originally scheduled for January 30, but had to be rescheduled in accordance with the weather-related closure of the University.

Organizations from all over the country traveled to campus on the rescheduled date of February 13 to meet with students from 4 to 8 p.m. in the Dahnke Ballroom. This was the second year in a row the Winter Career Fair was held in the Dahnke ballroom located in the Duncan Student Center. Despite the date change, the Winter Career Fair was well-attended by both employers and students.

**1,051**  
STUDENTS ATTENDED

### ATTENDANCE BY COLLEGE

**105** EMPLOYERS

### SUIT-UP EVENT

Sunday, January 27

In partnership with the Office of Student Enrichment, the Center for Career Development collaborated with JCPenney at the University Park Mall to host a night of shopping and style consultations for students to prepare for the Winter Career Fair.

The Suit-Up program is a national initiative of JCPenney to help students purchase professional attire at a discounted rate.

**392** STUDENTS ATTENDED

# Law School Fair | October 9, 2018 Dahnke Ballroom

In July 2018, the Center for Career Development began offering pre-law advising and expanded efforts in coordination with the Office for Undergraduate Studies. Anita Rees, Assistant Director of Undergraduate Career Services, was appointed to serve as a pre-law advisor.

Although discerning and exploring a career in law has been a core industry specialization in Undergraduate Career Services for many years, adding the role, knowledge, and resources for pre-law advising more fully integrated and enhanced career advising for students. Partnerships were strengthened with the College of Mendoza Pre-law Advisor, Notre Dame Law Admissions staff, and the College of Engineering Director of Undergraduate Studies, a resource for engineering students interested in patent law.

The Center for Career Development hosted the department's first Law School Fair in the Dahnke Ballroom on October 9. The fair was a great opportunity for students to meet face-to-face with law school admissions representatives from top schools across the country under one roof. Students were able to gather more information about attending law school, gain insight about navigating the application process, and ask questions to help take the next step.

## 90 law schools attended including:

- Columbia Law School
- Cornell Law
- Duke University School of Law
- Florida State University College of Law
- Nebraska Law School
- New York University School of Law
- Penn State Law
- University of Chicago Law School
- UCLA School of Law
- University of Michigan Law School
- University of Missouri Law School
- Vanderbilt Law School

## EDUCATIONAL SESSIONS

3 additional law school prep sessions were held directly after the Law School Fair ended for students, including:

- **Financing Your Law School Education**
- **Writing the Personal Statement for Law School**
- **How Law School Admissions Evaluate the Application Package**

For the first year of pre-law advising in Undergraduate Career Services, we implemented **eight workshops**; conducted our first Welcome Weekend presentation on pre-law to parents and entering freshman students; **hosted 10 of the top 14 law schools on campus**, including Harvard, Stanford and Georgetown; held approximately **150 pre-law advising appointments**; conducted **19 personal statement review sessions** and developed and implemented the first **private practice, patent, and public interest law career treks**, visiting larger law and public interest firms in Chicago, with **17 students participating**. These additional programs provided a full range of exploration and advising services to students considering law school and a career in law.

### - Anita Rees

Assistant Director  
& Pre-law Advisor

## Architecture Fair | March 20, 2019, Smith Ballroom

---

Over **60 architecture firms** filled the Smith Ballroom at the Morris Inn on March 20 for the School of Architecture's annual career fair. Forty-three graduating students met firms to explore full-time employment while a host of second-year, third-year, fourth-year, and graduate students sought summer positions.

The fair, coordinated by the School of Architecture, enabled students to learn about opportunities and build relationships with potential employers. Firms were provided an opportunity to find well-qualified candidates with skills in both hand drawing and computer rendering and a strong foundation in building technology, as well as theory.

On day one of the three-day event, firms and students met and exchanged resumes and information. On days two and three, firms conducted individual interviews with candidates. Representatives of the firms also had an opportunity to explore the School's new home, Walsh Family Hall of Architecture.

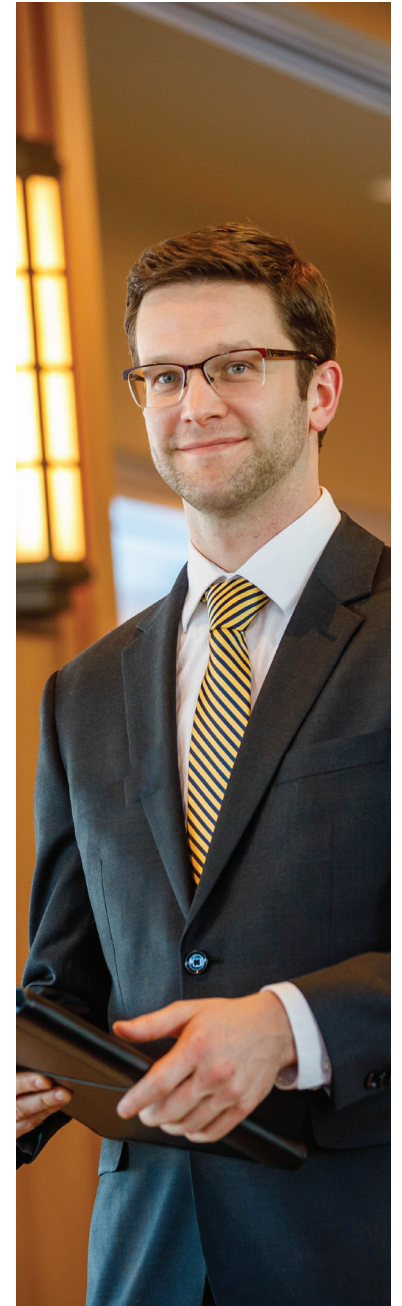

## Regional Internship and Career Fair | April 17, 2019, Dahnke Ballroom

---

The Center for Career Development hosted its first ever Regional Internship and Career Fair on Wednesday, April 17 in the Dahnke Ballroom from 6 to 8 p.m. The event was created in recognition of the need for students who were staying near campus during the summer or were interested in living in the area permanently.

Our Employer Engagement team identified employers in the South Bend and Elkhart areas and invited them to participate in the fair. **Over 50 employers** came to campus in search of local talent for internships, full time, experiential, and job shadow opportunities.

# ENGAGEMENT

## Employer On-Campus Recruiting

**4,785** ON-CAMPUS  
INTERVIEWS

**217** INFORMATION SESSIONS AND OFFICE HOURS

Information Sessions are employer presentations that allow organizations to provide information about their company and available opportunities.

Office Hours are brief informational one-on-one meetings where students sign up to speak with an employer about their company, the industry, and/or basic information.

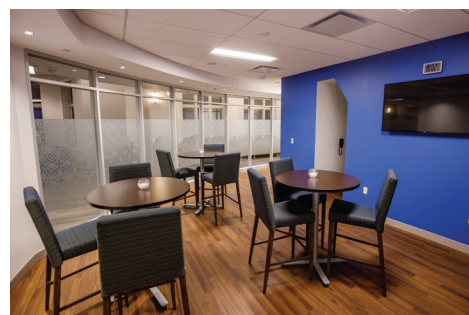

## INTERVIEW CENTER

The Center for Career Development's interview center was established in January 2018 to serve Notre Dame students in all stages of the career development process through the use of a world-class facility. The interview center includes **45 rooms** spanning 100 yards across the 5th floor of the Duncan Student Center.

The Center features **36 interview rooms** plus **11 additional conference rooms** that can be used by recruiters for interviews. The interview rooms provide a total of **4,121 square feet** (a **136% increase in square footage** from the former Career Center in Flanner Hall). The increase in space provides more opportunities for recruiters and organizations to come to campus to meet Notre Dame students.

In addition to these rooms, the Center offers a **1,900 square foot**, state-of-the-art training room with integrated technology. The room provides mobile tables and chairs, and the space can be divided into two smaller rooms for additional flexibility for events such as employer informational sessions, workshops for students, training sessions, receptions, and more.

# Notre Dame California

The Notre Dame-California program seeks to elevate the state as a source and destination for Notre Dame student talent. It connects the University's top-flight faculty and student scholars as well as our premier programs to the dynamic employer ecosystem found on the West Coast. Notre Dame-California isn't simply a West Coast office, it is the embodiment of the University's desire to be an active partner and presence across the state, contributing to and benefitting from the educational, entrepreneurial, and creative cultures that make California unique. Establishing a presence in California allows Notre Dame to contribute its distinctive voice to the moral and ethical deliberations that inevitably arise in a landscape where the next big thing is always just around the corner.

## EXPANDED THE NUMBER OF CAREER TREKS

- Los Angeles, Aerospace
- San Diego, Biotech
- Bay Area, PhD
- Los Angeles, Entertainment & Media
- San Francisco, Wall Street
- Bay Area, MBA Tech Trek & ESTEEM immersion experience

Entertainment & Media Trek Students visiting the writers of Fox's show, *Single Parents*.

In the summer of 2018, **432 NOTRE DAME STUDENTS** participated in internships, full time opportunities, service opportunities, or were returning home to California.

## REACHED AND ENGAGED WITH 2,000+ ALUMNI

throughout the state by providing career services updates every quarter and informing them of students who were seeking California intern and new graduate opportunities.

The California staff pulled over 75 custom resume books on ND students and shared them with alumni and recruiting partners this past year.

The California staff **EXPANDED** and hired part-time staff to **assist with employer engagement efforts** to maintain and increase employer relationships throughout the state.

**Linda Lynch**  
Regional Engagement Assistant  
Southern California

## Shamrock Series Event | New York City, NY, Friday, November 16, 2018

---

Graduate Business Career Services and the Center for Career Development partnered to host an alumni luncheon in conjunction with the Fall 2018 Shamrock Series game where the Notre Dame football team played Syracuse University in Yankee Stadium. The Cornell Club event welcomed alumni of both the Graduate School and Graduate Business programs, as well as local and visiting employer partners, to recognize and honor their efforts on behalf of the Notre Dame family.

Associate Vice President for Career and Professional Development, Ryan Willerton, kicked off the event, welcoming guests and sharing insights into the work of the Notre Dame career centers. A luncheon and networking session followed the talk.

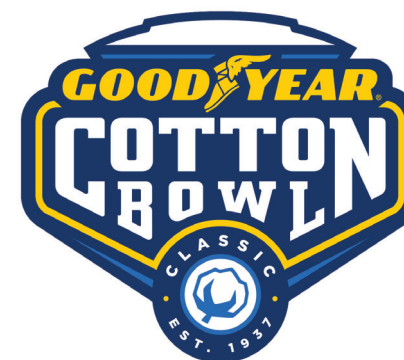

## Cotton Bowl Cocktails Event | Dallas, TX, Friday, December 28, 2018

---

The Center for Career Development, in collaboration with Graduate Business Career Services, held a networking event in Dallas, Texas, in advance of the University of Notre Dame football team's appearance in the College Football Playoff. "Cotton Bowl Cocktails," welcomed University administration, alumni of both the Graduate School and Graduate Business programs, as well as local and visiting employer partners, in appreciation for their partnership with the University and Career Services.

The event, attended by over 175 guests, preceded the football team's pep rally on Friday, December 28, and was held in a nearby restaurant, Bob's Steak & Chop House. Thanks to the event, both the Center for Career Development and Graduate Business Career Services were able to increase overall engagement while formulating new partnerships with passionate alums and employers to better serve current students beyond their education at Notre Dame. The event was extremely well received, with several opportunities (e.g., job postings and future conversations related to employment and overall partnerships) coming in the weeks following the event.

# IrishCompass

IrishCompass is the University's official online mentoring and networking community where students connect with Notre Dame alumni to gain support and perspective as they navigate their careers. In true Notre Dame spirit, alumni can give back to fellow grads and current students by serving as a resource and sharing their professional experience. IrishCompass supports alumni and current students as they collaborate and grow professionally through group and individual connections. The community automatically generates natural connections using an algorithm and offers flexible search fields that enable users to find and connect with fellow professionals. There are also more than 30 industry groups where participants can get answers to questions they share as part of group discussions.

Thanks to the efforts of staff members across four departments — the Center for Career Development, the Notre Dame Alumni Association, the Office of Information Technologies, and the Monogram Club — the community launched in 2017.

## TEAM IRISH AWARD

In 2018, the IrishCompass implementation team received the Presidential Team Irish Award. The Award publicly recognizes staff teams whose work exemplifies the University's core values of integrity, accountability, teamwork, leadership in mission, and leadership in excellence.

**10,881 member accounts** on IrishCompass were reported at the end of the academic year. Of that number, **4,265** are currently students.

There are **290 total ongoing mentorships** on IrishCompass reported at the end of the Academic Year.

**7,189 connections** made on IrishCompass were reported at the end of the academic year. Connections include messages sent to request meetings, gain mentorships, and discuss career paths.

# Moreau First Year Experience

The Moreau First Year Experience is inspired by the pedagogical vision of Blessed Basil Moreau, professor, priest, and founder of the Congregation of Holy Cross. A two-semester, graded course sequence helps new students to integrate their academic, co-curricular, and residential experiences. All first year students are required to participate in the Moreau course.

**2,072 first year students** attended the Moreau First Year Experience this past academic year where the Center for Career Development staff and colleagues introduced career services and early engagement in the career discernment process.

## 2 sessions focused on Career Development content

Career topics taught during Moreau include:

- Engaging in the Process
- Networking

**Three staff members**, Ryan Willerton, DeeDee Dolan, and LoriAnn Edinborough, **served as Moreau instructors** during the 2018-2019 Academic Year.

# Student-Athlete Engagement

To best serve the 720 student-athletes on campus, the Center for Career Development hired Student-Athlete Career Development Program Manager James Biddick in July of 2018. Relationships were not only focused on student-athletes, but also on other internal and external stakeholders including athletic staff, academic services, alumni, donors, and employers (both local and national).

To respond to the unique demands faced by this population of students, Biddick created industry-specific programming for student-athletes. He also established an “in-house” presence with Notre Dame athletics teams, accommodated career services to fit the demanding schedules of student-athletes, collaborated with the Monogram Club, and developed a Sports Administration Notre Dame group for students.

## INDUSTRY-SPECIFIC PROGRAMMING:

A healthcare panel and workshop **brought in alumni, professionals, and past student-athletes currently working in sports** to provide an opportunity for them to **learn more and make connections** in other industries.

## INDIVIDUAL APPOINTMENTS

During the spring semester appointments were conducted to assist student-athletes with the following:

- Career Discernment
- Resumes
- Online Branding
- Online Career Resources
- Networking
- Professional Communication
- Informational Interviews
- Internship and Job Interviews
- Searching and Applying for Opportunities
- Navigating Offers

\* Established an “in-house” presence with the football team by attending training tables every second week, and held walk-in hours each Friday during the spring semester.

## OVERTIME PROGRAM

A significant initiative born out of findings from a survey at the beginning of the academic year, the Overtime Program is targeted at student-athletes who are unable to complete a traditional 8-12 week summer internship, but still wish to participate in experiential learning opportunities. Approximately **60 student-athletes applied to be part of the program**, noting their interests and availability, which were compiled and distributed to approximately 350 student-athlete friendly employers.

Currently, **30 offers have been extended** and are at varying stages of acceptance. This number is anticipated to increase as student-athletes return to campus in June to study and train, and are able to connect with local employers.

## SPORTS INDUSTRY CAREER TREK

With the development of the Sports Administration Notre Dame (SAND) group, students interested in learning or working within the sports industry traveled to Chicago, IL for a day trek to learn more about the industry and to make connections by visiting the headquarters of the Chicago Blackhawks, Chicago Bulls, and 4Front.

The Chicago Sports Trek trip was **an amazing opportunity** that helped all of us gain connections within the organizations and also **provided us the potential to acquire internships**. Our leaders, Ali Hart and James Biddick, did a tremendous job preparing us for the trek and scheduling the events so that we could truly see everything the industry has to offer. The other students and I walked away ecstatic, and we cannot thank Notre Dame and the Center for Career Development enough for **providing us the opportunity to potentially gain positions in our dream industries!**

- Brendan Brady, Class of '21

# First Gen Initiatives

Based on an identified need to better serve first generation students, the Center for Career Development established a student-driven First Generation Careers Initiative to provide tailored programming for first gen students and engage them in career development. This program is lead by Assistant Director Dee Dee Dolan Canelli and is supported by a student advisory board.

## FIRST GEN, FIRST LOOK

**73 students** attended a student panel that provided an opportunity for first year, first generation students to hear from peer junior and senior first generation students about how they utilized resources including treks, funding, and discernment appointments.

## FIRST GEN NETWORKING NIGHT

**36 students** were connected to first gen employers from **PwC, Teach for America, ACE, and Vanguard** in a networking event prior to the Winter Career Fair.

## FIRST GEN, FIRST LOOK: BACKSTAGE PASS TO THE FALL CAREER FAIR

**44 students** attended the "early access" opportunity for first gen students. They were able to meet with employers and get a better understanding of how to navigate the Career Fair.

## COLLABORATION WITH THE WALL STREET CLUB

The First Gen Careers Initiative hosted a "Wall Street Forum" prep session and Backstage Pass to the Wall Street Forum for first gen students. **29 students attended.** Employers included **Goldman Sachs, Bank of America, Morgan Stanley, Credit Suisse, Deutsche Bank, JP Morgan, and Citi.**

# International Student Engagement

The Center for Career Development supports international students who adopt a global job search approach, taking advantage of resources to target internship, networking, and job opportunities in their home country, the United States, and other locations.

**Worked together with the Alumni Association** to host an International Notre Dame Alumni Career Panel and Dinner featuring executive level alumni from five different countries.

**Linked job postings including work authorization** in GO IRISH to the ISSA newsletter to **increase awareness about job and internship possibilities** for international students.

**Partnered with the Office of International Student Scholar Affairs** to host both spring and fall International Student Career Panel and Dinner.  
**50+ students participated.**

Created an **International Career Assistant position** to provide focused attention to the unique challenges confronting international students' job and internship searches.

# FIRST GEN CAREERS

Meruelo Family Center for Career Development

# EXPERIENTIAL

## Fall Break Career Treks

### Science

Washington, D.C. | October 14-17, 2018

The Science Career Trek was an opportunity for students to gain an understanding of various career paths and available opportunities in the science industry through visits with several organizations.

**7 students** participated in the trek.

**Students met with 15 local Notre Dame alumni** to gain perspective on career trajectories in D.C., graduate school, and what career options are available with a science degree outside of the medical field.

**Students visited 9 organizations** in D.C.:

US Agency for International Development

Environmental Protection Agency

Society for Science

Booz Allen Hamilton

Smithsonian

MedImmune/AstraZeneca

MacroGenics

Federal Energy Regulatory Commission

**This experience was so valuable.** I would recommend it to anyone who is considering [going]. It was really awesome to be able to see **so many different career paths.** It was still so cool to see how the industry worked and to see the ins and outs. I was really surprised at what I was actually interested in and now feel that **I have a better sense of clarity of what I want to do.**

- Ellie Olmanson, Class of '21

### Fashion Retail

New York, N.Y. | October 15-18, 2018

The Fashion Retail Trek was an opportunity for students to explore careers in fashion and retail. Students traveled to New York City to learn more about career options in the industry, meet with employers and alums who currently work in fashion and retail, and make connections to further advance their future careers. **8 students** participated in the trek.

**Students met with several New York based Notre Dame alumni** and participated in a networking dinner to gain perspective on making the transition to the industry and to hear first-hand about alumni career paths.

**Students visited 8 organizations** in N.Y.C.:

Collection XIX

CHNGE

EDITED

Kohl's

Lilly Pulitzer

Lord & Taylor

Parker New York

Ralph Lauren

### Public Policy & Government Career Trek

Washington, D.C. | October 14-17, 2018

The Public Policy & Government Career Trek was an opportunity for students to explore several of the primary industries in Washington, D.C., network with a large number of Notre Dame alumni, learn how industries connect, overlap, and are distinct from one another, and gain more information to make an informed career decision about desired internships or jobs. Sophomores, juniors, and seniors were eligible to participate in the Career Trek. **7 students** participated in the trek.

**Students met with 33 D.C. based Notre Dame alumni** to gain perspective on making the transition from student to entry-level career professional in DC. Graduate school opportunities and long-term professional development were also discussed.

**Students visited 9 organizations** in D.C.:

AEI

Atlantic Council

Avascent Group

Brookings Institution

Chemonics

Facebook

Hamilton Place Strategies

Search for Common Ground

US State Department

I felt that I walked away with a **greater sense of clarity** in what I want to do. And it **really aided my discernment process** in being able to picture myself in certain places. I realized that maybe think tanks aren't for me, but there are also some other aspects of things [careers] that **I hadn't considered before** that I can now picture myself working in.

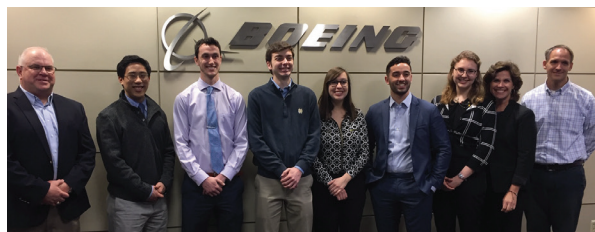

- Rachel Ingall, Class of '21

# Spring Semester Career Treks

## Aerospace

Los Angeles, CA, March 11-14, 2019

This was the first year for students to participate in the Aerospace Career Trek. Students gained exposure to the many career paths available within the industry, learned first-hand the importance of networking, and were able to see the innovation and the technology being used to protect our country and push limits in space exploration. **Six students** participated in the trek.

**38 LA based Notre Dame Alumni** met with students to share a deeper perspective on the aerospace industry.

**Students visited 10 organizations** during their time in LA:

Boeing	Northrop Grumman
The Boring Company	Raytheon
DAQRI	SAIC
JPL	Techstars
MOOG	Virgin Hyperloop One

|| This experience was **particularly valuable** because, not only did it **grant further exposure to trends in the evolution of the aerospace and defense industry**, it also **showed another side of the industry as a whole** in the role of a technology integrator which values ingenuity in how resources are used to create efficient, effective solutions.

- Ryan Dixon, Class of '19

## Biotech

San Diego, CA, May 21-23, 2019

The Biotech & Pharmaceutical Career Trek in San Diego helped students explore opportunities in the industry and network with alumni. Sophomores, juniors, and seniors in the College of Science, or students in engineering were interested in the scientific side of those fields, were able to participate in the trek. **Eight students** participated in the trek.

**27 San Diego based Notre Dame Alumni** met with students to share perspectives on making the transition to an entry-level professional career in the industry and navigating career paths.

**Students visited nine organizations** during their time in San Diego:

Biocom	Illumina
Cardea	NuVasive
Dexcom	Retrophin
Eli Lilly & Co.	ZS Associates
Global Genes	

## Entertainment & Media

Los Angeles, CA, March 10-14, 2019

The Entertainment and Media Career Trek was an opportunity for students to explore several of the primary career paths in the entertainment industry, network with a large number of Notre Dame alumni, learn how different careers connect, overlap, are distinct from one another, and gain more information to make an informed career decision about internships or jobs. **12 students** participated in the trek.

**30+ LA based Notre Dame** alumni met with students to educate them about making the transition to Los Angeles, how to develop connections in the industry, and inform them about varied career paths in the entertainment and media industry. Outside of organization visits, students also participated in a young alumni dinner, a creative dinner with alumni, a panel discussion, and a pitch opportunity with alums.

**Students visited 10 organizations** during their time in LA:

ABC Studios and The Walt Disney Co.	Management 360
Charmed (The CW)	Nickelodeon
Fox Studios	NBCUniversal
HBO	Narcos Writers Room
Hulu	Paradigm

|| The trek was **the first time** I realized that it's actually possible to take the leap and move to LA to pursue my dreams. **It was inspiring in a way I really can't describe.** To know that there is a growing **Notre Dame community in LA and a network of people ready to help was so comforting.** I have pages and pages of notes and contacts, and I am so appreciative for how much I know it will **help me in the future!** Before the trek, I really didn't know much about how the industry works. The trek was like a massive crash course on the industry and I learned so, so much that I don't think would be possible anywhere else. **I simply can't put into words how grateful I am for that experience.**

- Katie Mullane, Class of '21

# Silicon Valley PhD Career Trek | Silicon Valley, CA, February 24-March 1, 2019

Thanks to a partnership with the Graduate School, the Graduate Career Services team of the Center for Career Development offered an extended trek for PhD students. Trek leader Larry Milks, Graduate Career Consultant for the College of Engineering, outlined the goals in adopting career treks for students: become a grad careers pace-setter, provide opportunities for career discernment, create professional connections, and become a target school status.

Students participated in discussions with panelists from various PhD roles within organizations the group visited. They also were taken on facility tours to get a first-hand sense of the work environment and culture. The students participated in several networking events held throughout the trek designed to provide a more casual environment in which the students could engage with people of interest at the organizations.

As students interact with professionals during trek visits, they have opportunities to develop their professional network or build relationships and to leverage these connections when pursuing full-time positions. By developing sustained relationships with key organizations, Notre Dame positions itself as a trusted and preferred source of talent and opportunity for ND grad students.

## 12 STUDENTS PARTICIPATED

**10 of the 12** were international students.

Students met with **21 alumni** during their time in California.

Students also participated in an **alumni mixer dinner**, giving them the opportunity to speak informally with alumni from **3 additional organizations**.

## REAL-WORLD PRACTICE

A “challenge” exercise at **AT&T** provided students with a **real-world problem** to address in a certain amount of time. Then they had the opportunity to **present their findings** and recommendations to **data science professionals at the company**.

## 12 COMPANY VISITS

Amazon A9  
Apple  
Argonne National Lab  
AT&T  
Eli Lilly  
Exponent  
Intel  
McKinsey & Company  
Naval Sea Warfare Center  
Neophotonics  
Seagate  
Visa Research

**11 out of the 12** visits were hosted by **Notre Dame alumni**.

# Undergraduate Day Treks

## Law | Chicago, IL

This was the first year for students to participate in day treks to Chicago. Students visited with law firms throughout the entire day, meeting with employers and alumni.

- **17 students** participated in all three day treks:
  - Patent and Private had **6 students** each
  - Public Interest had **5 students**

## Consulting | Chicago, IL

Based on strong student interest in consulting, the Center for Career Development partnered with alumni and recruiters to conduct a series of day treks. Students visited with representatives from consulting firms throughout the entire day, networking with employers and alumni.

- **3** different consulting treks total      ▪ Students met with **9 employers**
- **75 students** participated in all three day treks

## Sports | Chicago, IL

Students were shown a "real-world" perspective of the sports industry by visiting three organizations and companies in Chicago. They were given insight into what skills, attributes, and experiences employers look for when hiring for internships and entry-level positions, as well as typical career entry points and pathways.

## Nonprofit | Chicago, IL

In partnership with the Hesburgh Program in Public Service, Political Science, the Masters in Nonprofit Management Program, and the Center for Social Concerns, the Nonprofit trek served as a career-engagement experience for students enrolled in the Business of Nonprofits course.

- **12 students** participated

### Friday, February 22

#### Public Interest Law

Chicago LAF, National Immigrant Justice Center, Office of the Attorney General, Delgado Rompf Bruen LLC, and City of Chicago Law Department

#### Private Practice Law

K&L Gates, Winston & Strawn, Jenner & Block

#### Patent Law

Irwin IP LLC, Networking Lunch with Alumni, Banner & Witcoff

### Friday, March 1

Bain, Accenture, HealthScape Advisors

### Friday, March 22

McKinsey, PwC, Stax

### Friday, April 5

The Boston Consulting Group, Deloitte, Pariveda Solutions

### Monday, March 11

Chicago Bulls, Chicago Blackhawks, 4Front

- **3 Notre Dame Alumni** took time out of their day to meet with students during the trek
- **9 students** participated in the sports day trek

### Monday, March 25

Heartland Alliance  
Illinois Policy Institute  
American Cancer Society

# Graduate Student Day Treks

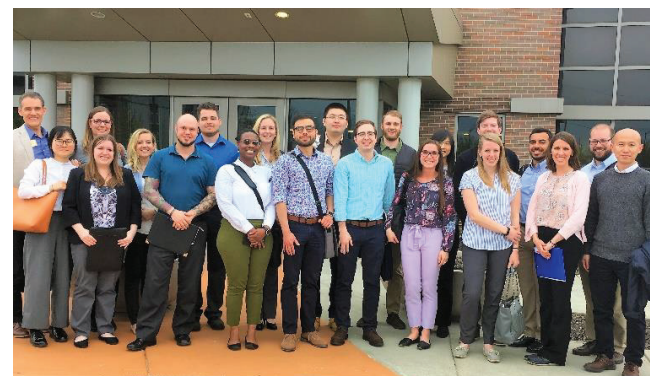

## Pharma Industry | Indianapolis, IN

During the Pharma Industry Day Trek, grad students participated in an interactive panel discussion with representatives from various PhD roles within the organization. They also listened to presentations about organization specifics such as hiring needs, the hiring process and cycle, departmental structure, projects undertaken, and products or services provided. To wrap up the visit, students took a facility tour to obtain a sense of the work space, laboratory/analysis equipment, and organizational culture.

**Tuesday, April 23**

### ■ 20 students visited Eli Lilly

- 3 - Biochemistry
- 6 - Biology
- 2 - Chemical biomolecular engineering
- 8 - Chemistry
- 1 - Integrated biomedical science

## National Defense | Crane, IN

Similar to the Pharma Trek, grad students on the National Defense Trek participated in interactive panel discussions with representatives from various roles within the organization.

**Wednesday, April 24**

### ■ 7 students visited NavSeas

- 1 - Applied and computational mathematics and statistics
- 4 - Aerospace and mechanical engineering
- 1 - Electrical engineering
- 1 - Physics

## Consulting + National Labs | Chicago, IL

For the Consulting and National Labs Day Trek, grad students participated in interactive panel discussions with people from various roles within the organizations. While at McKinsey, students were presented with a challenge exercise where they were given a case review practice to get a real-world taste of management consulting.

**Wednesday, April 24**

### ■ 23 students visited McKinsey and Argonne

- 1 - Aerospace and mechanical engineering
- 2 - Applied and computational mathematics and statistics
- 2 - Biology
- 1 - Chemical engineering
- 6 - Chemical biomolecular engineering
- 4 - Chemistry
- 1 - Civil & environmental engineering
- 1 - Computer science and engineering
- 5 - Electrical engineering
- 2 - Integrated biomedical science
- 1 - Physics

# Arts & Letters Corporate Industry Bootcamp | Chicago, IL, October 15-18, 2019

Thanks to a partnership with the College of Arts & Letters, the Center for Career Development offered an intro to corporate careers for A&L sophomores and juniors last fall. The A&L Corporate Industry Bootcamp is a four-day seminar designed to expose nonbusiness majors to the functions of marketing, finance, and management in a corporate setting. During this immersion, student teams are given real world problems to analyze, solve, and provide solutions.

## OPPORTUNITIES

The Arts & Letters Corporate Industry Boot Camp is a great opportunity for students to **explore careers in consulting, finance, and marketing.**

## 4 COMPANY VISITS

During the A&L Bootcamp, students visited **Deloitte, BMO, Starcom, and Healthscape Advisors.**

## 20 STUDENTS participated

**11** juniors

**9** sophomores

### Student participant majors

American Studies  
Anthropology  
Economics  
International Economics  
Political Science  
Program of Liberal Studies  
Philosophy  
Sociology

Students interacted with **37 ALUMNI** during the bootcamp.

**Notre Dame alumni and employers** participated in panels and/or networking events with students **representing the following companies:**

Accenture  
Analysis Group  
Aon  
BCG  
Citadel LLC  
Cramer- Krasselt  
Deloitte  
Doblin-Deloitte Digital  
Edelman Intelligence  
FCB  
Ferrara Candy Company

Huron Consulting Group  
JIMMYBAR Natural Foods  
LoSasso Integrated Marketing  
Merrill Lynch  
Morningstar  
NextCapital Group  
Pinterest  
SapientRazorfish  
William Blair

# PROGRAMS

## Career Development Summer Internship Funding

The summer funding program has been branded with a new name to best capture the full scope of opportunities supported by the 19 funds allocated through the Center for Career Development. During the summer of 2018, the funding program supported 282 students from across all undergraduate colleges and in a myriad of industries. From small start-ups to the largest corporations in America, Notre Dame students earned support through the Career Development Summer Internship program to take a critical step in their career progression.

### \$543,626 TOTAL FUNDS

were allocated to **282 students** in 2018.

#### BY THE NUMBERS:

- **28 States** - Number of states where student experiences were held.
- **13 Countries** - Locations of student experiences.
- **65%** - Percentage of participants in an unpaid or nominally paid experience.

#### 19 FUNDS provide financial support to students

- Hugh and Cynthia Andrews Family Fund
- Archer Family Endowment for Undergraduate Internships
- Peter and Mary Ann Aviles Endowment for Excellence for the Arts and Letters Summer Internship Program
- Joshua T. Brumm Family Endowment for Excellence for Student-Athlete Externships
- Catholic Charities Summer Internship Program
- Class of 2009 Alumni Assistance Fund
- Daniel and Michelle Murphy Fund for Excellence for Student-Athlete Services
- DeSalvo Family Endowment For Undergraduate Internships
- Joan and Barry Gluck Endowment for Excellence for Student-Athlete Services
- HJ Newman Endowment for Excellence for Summer Internships
- Patrick J and Margaret McGlinn Shields Endowment for Excellence for the Arts and Letters
- Summer Internship Program
- Robby and Pamela Rask Endowment for Student-Athlete Services
- Rogers Family Arts and Letters Summer Internship Fund
- Schlehuber Family Endowment for Excellence Internship Fund
- Michael and Karen Soenen Endowment for Excellence for Entrepreneurial Internships
- Tracy and Kerie Grahm Family Football Endowment for Excellence
- Whitman Family Endowment for Undergraduate Internships
- The Willett Family ND California Initiative

This funding program is **really an invaluable resource**. I am so grateful for the people at the Center for Career Development who organize it and to the donors for funding it. Though I do not plan to return to the type of work I did this past summer, I would say that **my experience as an intern has had a great impact on my plans for post-graduation**. I have much clearer ideas now on what I value in a career, the type of environment in which I want to work, and the type of work I want to do. Thank you for valuing unpaid internships and supporting the students who choose to do them. **I would not have been able to take this position without this funding.**

**- Molly**

Class of 2021

# Government & National Security Careers

In Fall 2018, Assistant Director Anita Rees planned and held a **variety of programs related to government and national security careers**. With the application process for national security positions beginning early in the academic year, a series of presentations, workshops, and office hours with the CIA, FBI, U.S. State Department, NSA, and alumni working in various national security positions were conducted during September for both graduate and undergraduate students across all colleges.

Christopher Powers, Foreign Service Officer, USAID, Private Sector Finance and Investment, Uganda, and Holly Powers, Development Outreach and Communications Officer, USAID, Southern Africa kicked off the series with a presentation on **Alumni Career Paths into International Development**. This workshop was hosted in partnership with the Keough School of Global Affairs. Additional programs in the series are listed below.

## OPPORTUNITIES WITH THE CIA

The CIA conducted Opportunities with the CIA, a learning opportunity for interested students. This entire program was co-hosted with the Notre Dame International Security Center. A visit to the St. Joseph County Cyber Crimes Unit on the Notre Dame campus was arranged for the CIA recruiting team as well. They had the opportunity to meet and talk with several of the Cyber Crime Notre Dame student interns. In total, **149 students** participated.

Opportunities with the CIA
General Information Session
Clandestine Simulation
CIA Walk-In Office Hours for Engineering Majors
Analytic Simulation
Do You Qualify for a Security Clearance?
CIA Careers Panel - Q&A
CIA Graduate Student Q&A - Security Clearance, Career Paths, and Stories
CIA Walk-In Office Hours for All Undergrad and Grad Majors

## STEM RESEARCH OPPORTUNITIES IN GOVERNMENT LABS AND FACILITIES WEBINAR

**October 10 and January 28**, presented by recruiters with Oak Ridge Associated Universities - for both undergraduate and graduate STEM students.

## PEACE CORPS/U.S. STATE DEPARTMENT

### Opening Doors to an International Career through Peace Corps and the U.S. State Department -

presented by U.S. Peace Corps Recruiter and U.S. State Department Foreign Service Officer and Recruiter in partnership with the Center for Social Concerns.

## PREPARATION

**Preparing for the State Department Foreign Service Oral Exam (3 hour training session)** - conducted by U.S. State Department Foreign Service Officer and Recruiter

**Preparing a Competitive Application for a U.S. State Department Internship** - presented by U.S. State Department Foreign Service Officer and Recruiter

## NATIONAL SECURITY CAREERS WEEK

### National Security Careers Week

was held on September 24-28. The week included **eight**

**programs** and was planned, supported, and marketed in partnership with the student organization, Women in International Security, as well as with the Notre Dame International Security Center.

**107** students participated

### NATIONAL SECURITY CAREERS WEEK

National Security Internships Peer to Peer Panel

Opportunities with the FBI

FBI Office Hours

Applying for National Security Internships and Full-Time Opportunities

U.S. State Department and National Security

NSA Representative Office Hours

WIS Special Session - Alumni in National Security Video Panel

Opportunities with the NSA followed by Office Hour Conversations

# Consulting Connect + Fall and Spring Consulting Weeks

Student interest in pursuing consulting as a career has increased in recent years. In support of this interest, the Center for Career Development responded by creating Consulting Connect, an initiative to educate and prepare students who are passionate about management consulting as a career path. The initiative is led by a Career Development career counselor and supported by a student advisory board.

Consulting Connect planned and implemented two consulting weeks, one in the fall and one in the spring. For both weeks, employers were invited to come to campus to participate in several workshops, panels, office hours, and networking events. The information below provides more details on both consulting weeks, as well as the club in general.

Officially established **January 2018**

- **Student Outreach Program**  
Works with diversity clubs and academic clubs to spread the word about events
- **Peer Case Coaching**  
25 sessions held in March and April
- **Tuesday Newsletter**  
Sent to 777 members each week

## FALL CONSULTING WEEK

A total of **21 employers** participated:

Accenture	KPMG
Bain & Company	L.E.K. Consulting
Booz Allen Hamilton	McKinsey & Company
Capgemini Consulting	Pariveda Solutions
Claro Healthcare	Protiviti
Deloitte	PwC
EY	SAP
FTI Consulting	Stax Inc.
HealthScape Advisors, LLC	The Boston Consulting Group
Huron Consulting Group	West Monroe Partners
	Zurich Insurance NA

FALL CONSULTING WEEK
Resume Reviews
Office Hours
Mock Case Interviews
Prepare for Consulting Recruiting
Peer Consulting Chats
Case Interview Workshops
FALL CONSULTING SYMPOSIUM
Breakfast with Bain, BCG & McKinsey
Lunch with Accenture, Deloitte, EY, KPMG & PwC
Government Consulting Panel
Strategy Consulting Panel
Healthcare & Life Sciences Consulting Panel
Technology Consulting Panel
Nonprofit and Public Services Consulting Panel
The Connective

## SPRING CONSULTING WEEK

A total of **11 employers** participated:

Accenture  
Bain & Company  
Deloitte  
Huron Consulting Group  
KPMG  
L.E.K. Consulting  
McKinsey & Company  
Pariveda Solutions  
PwC  
The Boston Consulting Group  
SAP

SPRING CONSULTING WEEK
Consulting Resume Reviews
Peer Consulting Panel
Case Interview Competition
CONSULTING SYMPOSIUM
- First Years: Exploratory Forum
- Sophomores & Juniors: Guess Who?!
- Seniors: Send Off Dinner & Discussion

## CASE INTERVIEW COMPETITION

Students of all experiences, class years, and skill levels to put their case interview skills to the test by practicing in an interview-like situation.

- **60** students participated in the first round
- **16** students participated in the second round

## CONSULTING CASE WORKSHOPS

The Case Workshops were hosted by **McKinsey, Bain, and BCG consultants** weekly every Tuesday from mid-February through late April.

Students learned more about consulting and the recruiting process, and had the opportunity to master the case interview process.

- **Between 50-100** students attended each workshop.

## MENTOR PROGRAM

Consulting Connect developed a consulting mentor program for students interested in making connections.

- **74** sophomores and juniors applied
- **44** of the students were matched with seniors

# Graduate Consulting Careers

Graduate Consulting Careers educates graduate students about the consulting industry, connecting them with consulting firms for recruiting purposes and preparing them for success during the networking, application, and interview process.

Notre Dame's **Graduate Consulting Club (GCC)** is a graduate student-led club that partners with the Center for Career Development. All graduate students are invited and encouraged to attend an array of workshops focusing on case interview preparation and professional development. The primary goal is to prepare graduate students for success in the interviewing process and in their future roles in the consulting industry.

## YEAR ROUND EVENTS

- **19** Events held throughout the year, including workshops focused on resumes, behavioral interviewing, case demonstrations, panels, and more.
- **294** Total students attended GCC events.
- **7** Consulting Organizations participated in club events:  
**Bain, BCG, McKinsey & Company, Pariveda Solutions, ProMazo, IQVIA**
- **6** Alumni partners involved in club events.

## GRADUATE CONSULTING WEEK

Graduate Consulting Careers held their **premiere Graduate Consulting Week in Spring 2019**.

- **March 22 - McKinsey & Company**, ND alum Gabe LaBonia (PhD Chemistry, '18) of McKinsey & Company shared his first year experience as a McKinsey consultant and gave students tips on preparing for this career field. **45 students** attended.
- **March 25 & 26 - Graduate Consulting Bootcamp: The Ultimate Crash Course for Consulting Interviews**, Jenny Rae La Roux and Namaan Mian led a two-day six-hour intensive workshop to cover networking, resumes, cover letters, and behavioral and case interviewing. **44 students** attended.
- **March 28 - Establishing Your Network & ProMazo**, Adam Lies, director of ProMazo, explained and reviewed networking strategies and part-time work opportunities for grad students in consulting. **17 students** attended.
- **March 29 - Experiences with IQVIA**, ND Alum Katie Ward of IQVIA discussed her career path, why she chose consulting, and explained the life science area focus of IQVIA consulting. **18 students** attended.

## DEVELOPMENT + HISTORY

- **June 2018** - First GCC Initiative events are held, and more are planned through the academic year.
- **September 2018** - A NDGCC constitution is developed and a formal application for club status is filed with the Student Activities Office.
- **November 2018** - Club status is approved by the Director of Student Centers and Activities. Graduate Career Consultant, Larry Milks, is appointed club advisor.
- **March 2019** - First ever Graduate Consulting Week is held.
- **April 2019** - New leadership team is interviewed and selected.

# Wall Street Week + Initiatives

During the spring semester, Assistant Director Bob Rischard partnered with the Wall Street Club to host the 19th consecutive Wall Street Forum, Middle Market Banking Night, Independent Banking Day, and Buy Side Night. There were several Wall Street initiatives this year, but these were the largest series of industry forums. Representatives from firms in Boston, New York, Philadelphia, Chicago, Milwaukee, Houston, Minneapolis, and San Francisco all attended the events.

For the 11th consecutive year, the department coordinated the Wall Street Externship program, which allows sophomores to spend two to eight weeks at a host firm (usually with a Notre Dame alum as a mentor) to gain hands-on experience working in a professional setting. Most of the firms are private equity firms or hedge funds in New York, Boston, and Chicago.

Please see below for detailed information on Wall Street Week and other Wall Street specific initiatives.

## WALL STREET WEEK PARTICIPATING FIRMS

**39 firms** attended:

Antares Capital	Greenhill	T. Rowe Price
Bain Capital Credit	Houlihan Lokey	Tortoise Capital
BAML	JP Morgan	Union Square
Barclays	Lazard Middle Market	Vanguard
BlackRock	Lazard Freres	William Blair
BMO Capital Markets	Lincoln International	
Brown Gibbons Lang	Lord Abbett	
Citi	Maranon Capital	
CreditSuisse	Moelis	
Centerview	Morgan Stanley	
DBO Partners	Perrella Weinberg	
Deutsche	Piper Jaffray & Co.	
Dimensional Fund	PNC	
Eastdil	PJT Partners	
Evercore	Putnam Investments	
GCM Grosvenor	Raymond James	
Goldman Sachs	Robert W. Baird	

## WALL STREET EXTERNSHIP PROGRAM

- **11th consecutive year** for the program.
- **30 students** participated in the program.
- **17 different firms** participated:

Anchor Capital	LaSalle Capital
Arsenal Capital	O'Shaughnessy Asset Management
Avenue Capital	Permira
Barclays	Players Health
Beecken Petty O'Keefe	The Jordan Company
Credit Suisse	Tegean Capital
Cressey & Co.	Rock Island
Goldman Sachs	Waud Capital
Junto Capital	

## INDUSTRY SPECIFIC LEARNING LABS

**18 learning labs** were coordinated in the spring to help educate students on specific topics such as:

- **First Year Learning Labs** - An overview of the different roles available to students pursuing a career in Financial Services as well as Career Development services.
- **Sophomore Learning Labs** - Interview prep for investment banking, markets, investment management, and private wealth management.
- **Mock Interview Blitzes** - A series of opportunities to develop and strengthen interview skills. **140 sophomores and juniors** benefited from these mock interviews.

**WALL STREET WEEK STUDENT ATTENDANCE** Attendance ranged from **60 to 220 students** per event.

# Shaheen 3MT for Graduate Students

The Three Minute Thesis (3MT) competition celebrates the exciting research being conducted by graduate students. Developed by The University of Queensland (UQ), the exercise cultivates student's academic, presentation, and research communication skills, and supports their capacity to effectively explain their research in three minutes, in a language appropriate to a non-specialist audience. Enrolled master's and doctoral students are eligible to participate in the competition. Work presented must have been conducted at the University of Notre Dame, and returning participant presentations must be substantially different from previous presentations.

The Competition also provides a valuable opportunity for all graduate students to come together, get to know one another, and talk about their research in a supportive environment in which Schools and Institutes can provide presentation skills training.

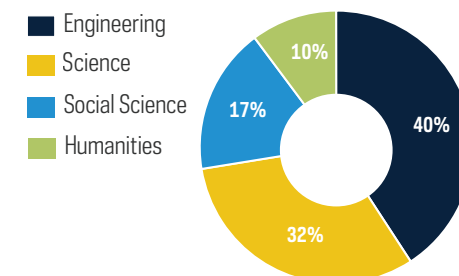

## FINALISTS

NAME	DEPARTMENT	TOPIC
Monica Arul Jayachandran	Department of Civil and Environmental Engineering and Earth Sciences	Occupant Comfort in High-Rise Buildings
Malika Sarma	Department of Anthropology	Acclimate to Extremes: Changes to Physiology and Behavior in Novel and Challenging Environments
Jessica Schiltz	Department of Aerospace & Mechanical Engineering	Laying a Foundation for Safe Hip Implants with Ceramic Additive Manufacturing
Cynthia Schreiber	Department of Biochemistry	Fluorescence-Guided Surgery of Cancer
Ryan Egan	Department of Psychology	What's So Depressing About Having a Baby?
Jamie McClung	Master of Global Affairs	Meeting the Ayeshas of Bangladesh
Kevin Sanchez	Department of Biological Sciences	Bacterial Weapons Systems and Micro-Espionage
Lauren Green	Department of Biological Sciences	Super Glia: Saving your Nervous System One Particle at a Time
Sarajane Roenke	Department of Civil and Environmental Engineering and Earth Sciences	Enhancing Wastewater Treatment by Manipulating

## TOTAL REGISTRANTS

This year, the 3MT competition had **98 registrants**.

## 2019 FIRST PLACE WINNER

**Monica Arul Jayachandran**, a PhD student from the Department of Civil and Environmental Engineering and Earth Sciences, **won the 2019 Notre Dame Graduate School Shaheen Three Minute Thesis Competition (3MT)** on Thursday, February 28, on the stage of Decio Theater in the DeBartolo Performing Arts Center. Arul Jayachandran took home the top spot, winning a **prize of \$2,000**.

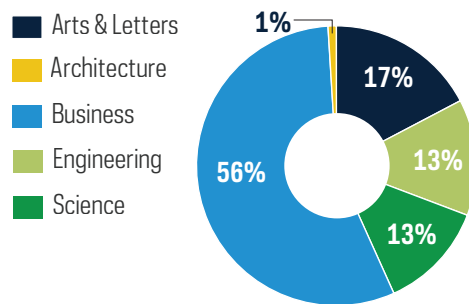

# President's Circle Mentorship Program

This highly selective mentoring program provides students the opportunity to connect one-on-one with some of the most trusted, loyal leaders from the Notre Dame family. Most are members of the Cavanaugh Council and President's Circle giving societies. Mentors are often in positions of senior leadership as founders, CEOs, partners, surgeons, lawyers, vice presidents, and managing directors. This unparalleled opportunity was available to undergraduate students through an application and selection process.

## 104 STUDENTS

Were selected to a Cavanaugh Council or President's Circle mentor in the summer of 2018. From these mentorships, true friendships have formed, careers have been forever impacted, job offers were extended, and critical job negotiation skills were learned.

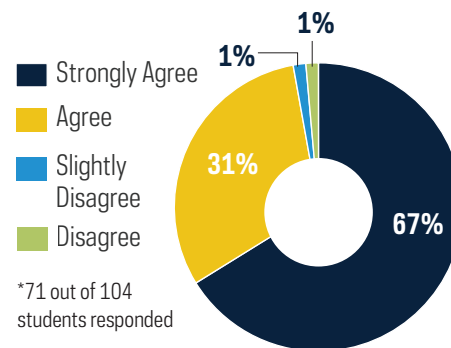

### College-Wide Participation

### Class Years:

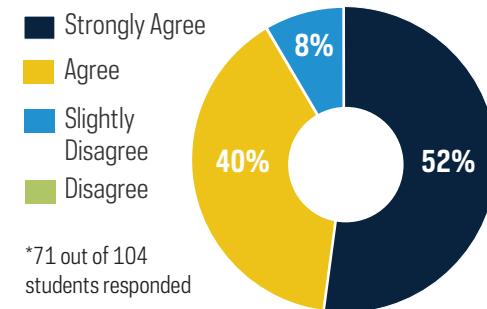

### MY MENTOR ENHANCED AND ADDED VALUE

### I AM MORE COMFORTABLE NETWORKING WITH ND ALUMNI

after having a mentor

**My mentor was invested in my success.** He was willing to make time to meet with me despite his hectic schedule and took the time to think through my internship offer decision process with me. **I believe the mentorship program's thoughtful pairing lent itself to this.** My mentor had a markedly similar background to my own, allowing him to reflect on the time when he was in my shoes. The best part of the experience was having someone to talk to about my internship offer that could help me look at how accepting/declining the offer could affect my long-term career goals. His knowledge of the industry **allowed him to point out the various paths and opportunities that could follow**, in addition to the opportunities that could close.
